ABOUT US

Suvarna Karnataka Kerala Samajam (SKKS) was founded in 2011, with the objective to have a state-level organization to address the common concerns of the people from Kerala and Karnataka. The organization upholds friendly relations among the people living in Karnataka, with religious and cultural diversity. SKKS focuses on providing medical assistance to the underprivileged, educational and legal support, thereby becoming a household name to their members.

SKKS is deep-rooted towards exponential growth and strengthening the relationship among the people of Kerala and Karnataka. In a short span of 13 years, SKKS has established 19 zones operating across Karnataka. SKKS Bangalore East Zone was among the initially established zone in the year 2011 and was instrumental in supporting, guiding and establishing further new zones all over Karnataka.

Our regular activities include medical camps, educational and legal assistance, palliative care etc. In addition, cultural and sports events are organized to bring all members together with a common goal of harmony and peace in the society we live in.

SUVARNA CLINIC

Kammanahalli

Committed to Caring

As a testament to our social commitment, Suvarna Clinic was established in November 2016 with a primary focus on supporting underprivileged patients who struggle to afford medical expenses. Over the past seven years, we have been dedicated to providing quality and compassionate healthcare services to those in need. Thousands have benefited from our initiatives, including support for heart operations and the provision of free medical supplies to old age homes and orphanages in our community. Dr. Rajani Satheesh, our lead physician since our inception, brings a wealth of experience and a commitment to medical excellence, playing a pivotal role in our mission to offer personalized healthcare services to the community.
